

LW 7501

Surround systems

BASS:	1 x 10" speaker with 2" voice coil
MID:	
TREBLE:	1 x 1" driver with 1" voice coil
HORN:	100° x 60° constant coverage bi-radial horn LW7011HFD
POWER:	250W AES/500W Prg. Nominal Impedance 8 ohm.
SENSITIVITY:	Sens. 95,5 dB/1W/1m. Free field SPL 119,5dB. SPL 122,5dB with musical criteria
FREQUENCY RESPONSE:	58 Hz.-22.000 Hz.
SIZE:	46 x 46 x 25,5 (12,5) cm.

We are proud to introduce this unit, with a special strong treatment of the enclosure that makes a very low frequency of resonance of the system. This enables the installer to EQ in a wider range of frequencies.

This concept of light ABS - very high power handling surround speaker - 250W AES, with 10" + 1" + constant bi radial horn for Atmos applications, is very easy to install on ceilings and walls of cinemas thanks to its extremely low weight and the optional LW 7712 Support.

The system is delivered with a fixed metallic support and, as an option, with our Totalmount support.
