SIZE:	76.8 x 38.1 x 50.4 cm.

A medium/treble screen high power system to be installed with a bass unit. With LAT2014 (Line Array Technology), which combines professional compression drivers with true isophasic horns to achieve an extreme -3dB coverage throughout the whole audience. High power with Line Array Technology with 4 x 6" medium drivers plus 4 x 1" compression drivers + 4 x isophasic horns.

The 8000 series loudspeakers are manufactured with the same components for achieving the necessary correlation of loudness (timbre) between the units used in the screen and the units used in surround.

The LW 8103 can be used as a high/medium-frequency unit with any bass unit, for example LW 6115 for getting 2/3 voices actives according to the customer's request.
